## EMPLOYER & STUDENT TESTIMONIALS

“Kelly’s class has changed the way my team thinks about money and has increased their confidence and performance. People who used to buy lunch every day now bring it from home instead. They talk about money openly and are focused on the future. Recently I used the class as a recruiting tool to entice a top performer away from a competitor. My team has asked me to hold a refresher course, which I plan to do very soon!”

**Richard Flournoy, President  
A-Total Plumbing**

“So far I have already paid off two credit cards and started saving more than I was prior. I feel empowered.”

“The class was motivating & inspiring, but most of all, doable!”

“It helped me see I CAN stop spending on things I don’t need.”
